WHEREAS, Republic Act No. 11332 or the "Mandatory Reporting of Notifiable Diseases and Health Events of Public Health Concern Act" declares that it is the policy of the State "to protect and promote the right to health of the people and instill health consciousness among them" and that the State "recognizes epidemics and other public health emergencies as threats to public health and national security, which can undermine the social, economic, and political functions of the State";

WHEREAS, the rationale of the MMDA Resolution No. 22-01 is to sustain the advances in public health and economic gains that have been achieved when NCR was under Alert Level 2 and to pre-empt the adverse impact of the highly-transmissible Omicron variant;

WHEREAS, public awareness of the efficacy of the various vaccines against Covid-19 led to almost one hundred percent (100%) jabs administered to target groups but the unvaccinated individuals who are most prone to infection and likely to contribute to the burdening of the health care system have not gotten their inoculation until now;
