**WHEREAS**, the Alabang Viaduct has been rehabilitated to strengthen its capacity for heavy vehicles, particularly heavy cargo trucks which pass thru the viaduct daily along the South Luzon Tollways;

**WHEREAS**, prior to its repair and rehabilitation, all heavy cargo trucks were prohibited from using the viaduct and were diverted underneath, thereby causing heavy traffic in and around the busy Alabang viaduct intersection;

**WHEREAS**, now that the rehabilitation of the Alabang viaduct has been completed, it is time to ease the heavy traffic underneath the viaduct caused by the passing through of said heavy cargo vehicles;

**WHEREAS**, while the widening of roads, the construction of the overpass across the Metropolis and the **Alabang Viaduct**, and along Montillano St., and the strict implementation of our traffic ordinance in the area which somehow eased the traffic congestion, there is still a need to regulate the traffic flow to further ease congestion in the said area;

**WHEREAS**, cargo trucks, heavy vehicles, fuel tankers, cement bulk carriers, long-bed trailers, container vans and other types of heavy and long vehicles pass, travel, enter and traverse the **Alabang Viaduct** during the open window provided under **Ordinance No. 03-083**;

**WHEREAS**, this type of vehicles poses danger to the general public and considering their weight, size, and heavy load, contributes to the gradual deterioration of the road underneath the **Alabang Viaduct**, notwithstanding that most of these vehicles are merely passing the said area and do not conduct business within the city;
