**WHEREAS**, "Typhoon CHEDENG" has brought about considerable destruction in the country, particularly, the island of Luzon including Metro Manila thereby causing the loss of lives, damages to property, and the usual flooding in several flood prone areas;

**WHEREAS**, it is not unusual to experience flooding in flood-prone areas in our city during the rainy season;

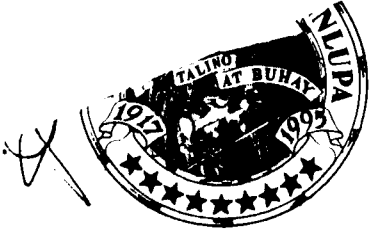

**WHEREAS**, despite the heavy rains caused by "Typhoon CHEDENG", flood-prone areas in our city were pleasantly spared from the usual flooding or flooding was minimized because of preventive measures which were implemented by the engineering department long before the on - set of the rainy season as directed by our chief executive Hon. City Mayor Atty. Jaime R. Fresnedi ;

**WHEREAS**, these preventive measures included the creation of Task Force Declogging in June 2001 which is composed of 4 groups with 6 people each for a total of 24 personnel in the Maintenance Division, with the task of cleaning and declogging our drainage system;

**WHEREAS**, the task force under the able leadership of Engineer Vic Navarro implemented two (2) programs to solve the flooding problem in our city which are the "Immediate Declogging Action" and "Long Term Comprehensive Declogging Action" for the cleaning and rehabilitation of the drainage systems long before the onset of the rainy season;
