II. **RATIONALE/BACKGROUND**

The **Muntinlupa Scholarship Division** is the City's scholarship arm under the Office of the City Mayor. It envisions a Muntinlupa City where no child is out of school, every Muntinlupeño has access to free education and every stakeholder has an opportunity to realize his/her aspirations through comprehensive and inclusive scholarship program.

The program dates back 1989 when the Muntinlupa Scholarship Trust Fund was established through Ordinance No. 89-81 to assist financially challenged students. Then came 1998, City Ordinance 98-008 was passed instituting the "Iskolar ng Bayan" Program which implemented free education at Muntinlupa Polytechnic College (now PLMun) for all high schools with average grade 85% or higher. In 2008, Ordinance No. 08-055 established the MSP to be funded from the Community Development Fund of the City under the Special Projects Account of the City Mayor. Year 2013, it was during Mayor Fresnedi's term as City Mayor, when educational assistance for elementary and high school was granted, making the program vaster and inclusive.

On July 25, 2017, the Muntinlupa City Council passed Ordinance No. 17-107 providing for an "Expanded Muntinlupa Scholarship and Educational Assistance Program and other incentives to students". Resulting from a series of dialogues and public hearings, the ordinance mandates and tackles a wide range of scholarship support for Muntinlupenos from basic education, tertiary, tech-voc, teacher's education, graduate studies and even support to thesis, dissertations, licensure review and incentives to sports achievers, honor students and board examination topnotchers.

On January 2020, the City Council has approved City Ordinance 2020-054, an ordinance increasing the annual allowance of its scholars and cash gifts for graduate and licensure examination topnotchers.

To ensure the overall sustainability of the program, stability in staffing, definition of processes, and most importantly, adequacy of budget or appropriation, the 9<sup>th</sup> City Council has passed City Ordinance No. 2021- 238, which created the Muntinlupa Scholarship Division (MSD) under the Office of the City Mayor. Education remains to be one of the priority programs of the City Government of Muntinlupa under the leadership of Mayor RuffyBiazon, under the “Karunungan” Pillar of his 7k Agenda.

In fact, last December 2023, City Ordinance 2023-143 was approved, this is in order to expand the scholarship categories and increase the amount of educational assistance to sustain the rising needs of students due to inflation and other affecting factors. The amendments are as follow:

The drop-out rate provides the percentage of students not able to finish a particular grade/year level – students unable to continue going to school within duration of classes – but does not capture students who finish a grade/year level but were not able to enroll in the next grade/year level of the following school year.

In an article published by Philippine Star last June 2023, it was revealed that 4 out of 10 students who start Grade 1 in the Philippines end up leaving school by Grade 10. While data from the Department of Education (DepEd) showed that out of 100 students who entered Grade 1 in 2010-2011, only 60 proceeded to Grade 10. Reasons for not attending school, according to the Philippine Statistics Authority, include lack of personal interest and insufficient family income.

The Commission on Higher Education (CHED) in the Philippines has reported a projected attrition rate of 35.15 percent for the school year 2023 to 2024, slightly lower than the previous year's 40.98 percent. During Senate deliberations on CHED's 2024 budget, CHED chair Prospero de Vera III attributed the increase in attrition rates in recent years to the impact of the COVID-19 pandemic. He noted that many students, particularly in private schools, had to discontinue their studies due to financial constraints during the pandemic. De Vera also highlighted the rising cost of living as a contributing factor and suggested a review of the needs of university students to address potential gaps in assistance. Despite the recent increase, the projected attrition rate is showing a decline from the peak, signaling a positive trend in the post-COVID period.

### School Leaver Rate

The school leaver rate measures both students not able to finish a particular grade/year level as well as those who finish but failed to enroll in the next grade/year level the following school year. For public elementary, the school leaver rate has decreased from 0.34% in SY 2018-2019 to 0.28% in SY 2019-2020 for both public and private elementary level. On the other hand, the combined school leaver rate in secondary level increased from 1.03% in SY 2018-2019 to 2.94% by SY 2019-2020 which may have been attributed by the pandemic situation.

### III. OBJECTIVES

The City of Muntinlupa's educational assistance program, including the HELP (Higher Education and Learning Program), aims to provide financial support to approximately 80,000 beneficiaries from wage-earning families. The key objectives of this initiative, in alignment with broader educational assistance programs, are as follows:

- **Ensuring Equal Educational Opportunities:** An essential goal is to guarantee equal access to education for all, irrespective of gender or socioeconomic background, fostering inclusivity in educational opportunities.
- **Reducing Dropout Rates:** Through targeted financial aid, the programs seek to decrease dropout rates by addressing the financial challenges that often lead students to discontinue their education prematurely. This contributes to a more educated and skilled workforce.
- **Enhancing Academic Performance:** The assistance programs strive to enhance the overall school performance of male and female learners by providing financial support. This support may include resources such as tuition fees, study materials, and other essentials to facilitate a conducive learning environment.
- **Economic Empowerment:** By providing financial assistance, these programs aim to empower students economically, particularly those coming from wage-earning families. The support helps alleviate financial burdens, enabling students to focus on their studies without being unduly hindered by economic constraints.

In summary, the educational assistance programs aim to remove financial barriers, promote gender equality in education, and elevate the academic performance of beneficiaries. The ultimate vision is in line with the United Nations Sustainable Development Goal No. 4 (SDG 4), emphasizing inclusive and equitable quality education for all, fostering the achievement of gender parity, and facilitating lifelong learning opportunities that empower individuals to finish college, secure gainful employment, and enhance their overall quality of life.

### OUTPUT AND OUTCOMES

The target of the program is 80,000 scholars ( 40,000 Male and 40,000 Female) covering SY2023-2024 and SY2024-2025. On outcomes, the proponents desire to see:

- further decrease in drop-out rates (especially among male learners) and;
- increase in completion, enrolment and retention rates.

Once dropped out or delinquent for any reason, they will tentatively be removed from the list. Matters concerning the reasons for dropping are to be discussed during MSD meetings with the coordinators. This is for reason that the allowance they are receiving from the City Government aims to support/cover their educational expenses, which in turn, should diminish the reasons of being a delinquent learner.

The process will commence as soon as the MSD meets and plan with school coordinators (currently comprising 10 males and 40 female teachers). MSD will then receive and consolidate validated list of male and female scholars from the same as attested by their respective school principals. ## PROJECT PROPOSAL

### 1. A Business Capital Loan for Muntinlupeños (SimulangKapital and DagdagPuhunan)

### 2. RATIONALE/BACKGROUND

The Muntinlupa Entrepreneurship Financing Division came to existence as per urgency to address the poverty crisis in Muntinlupa City. The directive is initiated by the City Mayor whose primary objective is to be of help to the group of low-income entrepreneurs in the city. The need to create a technical working team who would conceptualize mechanisms have been formed through constant meetings with collaborative stakeholders both from the local government department head, national key agencies and private sectors. Immediate area evaluation and surveys were established for validation to properly address a mechanism for poverty reduction. Heightened by the evidence of results and urgency, the chairman of the Majority Floor Leader of the City Council, sponsored and vitalized Executive Order 15-136, a City Ordinance establishing the JOINT RESOURCES FINANCING PROGRAM, a zero-interest capital loan assistance to a start-up and low-income entrepreneurs (micro-entrepreneurs), a program initiated by the then Mayor now Congressman Jaime R. Fresnedi.

On March 2022, the creation of the program as a Division with the City Ordinance No. 2022-335 which states: *"The Joint Resources Financing Program (JRFP) is hereby created by this ordinance as Division under the Office of the City Mayor"*. The institutionalization of the program is to ensure the continuous provision of loan assistance to the Muntipreneurs of the City.

While in January 2023, under the Ordinance No. which states, *"The renaming of the Joint Resources Financing Program Division to Muntinlupa Entrepreneurship Financing Division"*. The purpose is that from, "DagdagPuhunangWalangTubo" now with another Loan Category, "SiKap (SimulangKapital)" as initiated by Mayor RozzanoRufino B. Biazon to fully address the poverty incidences and lessen the unemployment rate in the City.
